Célia Lafond clia.lafond@gmail.com Lyon, FR

Senior Product Designer & Front-end Engineer

EXPERIENCE

Senior Product Designer & Front-end Engineer

Epigene Labs

Feb 2022 - March 2026 - 4 years 2 months, Remote

Biotech startup – data-centric product for the exploration and analysis of genomic data (researchers, biologists, computational biologists).

- Hired as Front-End Engineer, I proactively proposed and led a full UI/UX redesign of the product
- Built a product design culture from scratch: user interviews, shadowing, product workshops
- Evolved and maintained the design system
- Front-end development: React, TypeScript / ReScript
- Data-dense interfaces and complex UI state management

Product Designer & Front-end Engineer

Link Value

2016 - 2022 - 6 years, Hybrid

IT consulting firm – B2B digital products and internal tools, with dual responsibility in design and front-end development.

- Designed and developed custom internal tools (React, TypeScript, ReScript, CSS-in-JS)
- Contributed to design system architecture (React, ReScript)
- Facilitated user workshops (interviews, shadowing, user flows) as the sole Product Designer on a real estate transaction management tool
- Front-end development of the Arte.tv design system (3-month mission)
- Redesigned and created user flows at Dawex – design and front-end integration (8-month mission)
- Internal trainer: HTML/CSS integration best practices
