CÉLIA LAFOND celia.lafond.pro@gmail.com Lyon, France

Product Designer & Front-end Engineer

EXPERIENCE

Senior Product Designer & Front-end Engineer

Epigene Labs

Febr 2022 - Apr 2026 - 4 years 3 months, Remote

Biotech startup – B2B SaaS platform for exploring and analyzing cancer genomic data (researchers, biologists, computational biologists).

- Initiated and led the UI/UX redesign of the product, from a UI/UX audit I ran on arrival to a new navigation and information architecture, resulting in the user experience becoming a selling point for the company
- Built the product's first design system from scratch in Figma and React/ReScript as a single source of truth, maintaining design–code parity, improving consistency and enhancing collaboration between design and engineering
- Established and led user research: ran the first interviews, prototype tests and shadowing sessions, then trained PMs, who went on to lead 10+ discovery interviews on their own
- Redesigned the data-dense Data Explorer to scale from 2,000 to 50,000+ datasets, based on user interview insights and a cross-functional workshop I initiated, designed and facilitated

Product Designer & Front-end Engineer

Link Value

2016 - 2022 - 6 years, Hybrid

IT consulting firm – SaaS / B2B digital products and internal tools, with dual responsibility in design and front-end development.

- Led the design of new user flows for a real estate agency's client and property portfolio tool, as the sole Product Designer, through user interviews, shadowing, user journeys and prototype testing, then built and shipped their front-end
- Designed and implemented Dawex's insights dashboard, customized by client type, as part of an 8-month mission redesigning user flows
- Contributed to building design systems in React and ReScript, including the front-end development of Arte.tv's design system (3-month mission)
- Designed and built internal tools for B2B clients (React, TypeScript, ReScript, CSS-in-JS)
- Designed and ran internal HTML/CSS integration training (2 half-day sessions, 6 participants)

EDUCATION / TRAINING

Design Thinking Training / UX Republic

2017 - 3 days, Paris

Master Expert Digital / Digital Campus

2014 - 2016, Lyon

Apprenticeship in web agency

Professional Degree in Multimedia Communication / JM University Lyon 3

2013 - 2014, Lyon

Apprenticeship in web agency

SKILLS

Design

Design systems
Information architecture
Data-dense interfaces
User flows
User interviews
User research
Usability testing
Wireframing
Prototyping

Technology

Figma
FigJam
Photoshop
Illustrator
InDesign
Miro
Jira
Notion

Front-end

React
TypeScript
ReScript
HTML/CSS
D3.js
Responsive web design
Cursor
Claude Code

Languages

French (native)
English (fluent)
